

## PROWOOD RESERVE™

**ProWood® Reserve™** decking is the perfect and economical choice for people who love real wood. Use on decks, docks, boardwalks or wherever a more robust, profiled deck board is desired. Its 3/8" radius-milled edge provides comfort on the feet and a more attractive appearance.

ProWood Reserve 2x6 decking is available in select lengths up to 20' as well as 5' length for dock boards. All ProWood decking is protected with a lifetime limited warranty against rot and termite damage.

- Superior grade for better looks and performance
- Kiln dried for greater stability (optional)
- Water repellent added for optimal performance (optional)
- No top wane, small tight knots
- Color treated with ProWood Dura Color®  
No initial stain needed (select regions)
- Relief groove(s) help reduce the woods natural tendency to cup
- Single machined groove allows board to double as a cap rail (select regions)

### **Fortified with Water Repellent**

ProWood® Reserve™ decking employs an in-solution, factory-applied water repellent for added protection in wet environments, so it's less likely to warp, crack, check and twist when compared to other pressure-treated wood.

*Water repellent available in select regions.*
